PREFACE

The sixty-third volume of the City Directory goes to its patrons freighted with information that can be obtained in no other place, and of a kind most difficult to collate and compile. The newly annexed district taken from Clinton township was canvassed and the names will be found properly classified.

The total number of names in the Directory this year is 79,970. Of this number 8,199 are either firms, societies, buildings, etc., leaving the number of names of individuals at 71,771. Taking the first figures and using $3\frac{1}{2}$ as a multiple it would make the population of the City 279,895. If, however, the same multiple is applied to the number of individual names the population would be 251,198. The latter is undoubtedly too small, and a conservative estimate of the City's inhabitants would be 272,895. A careful census would doubtless show these figures to be approximately correct.

The City Map which accompanies this Directory has been revised and is up to date. It includes the newly annexed district.

The Street Directory has also been corrected and names of the streets in the new district have been added. It will be noticed that this causes numerous duplications and not a little confusion must ensue, until such time as the Board of Works takes the matter in hand and revises the street nomenclature. When ever taken up the work could be extended to the present limits of the City to advantage, where there are street names in duplicate and others sounding so nearly alike when pronounced that parties are frequently sent long distances out of their way. These are only a few of many reformations that could be made with advantage to the whole community.

A. J. CONNOLLY

CONTRACTOR FOR

Artesian Wells and Water Supply

PUMPS, PIPES AND FITTINGS AT LOWEST PRICES

INFORMATION FURNISHED ON APPLICATION

100 SOUTH TENTH STREET

I make a specialty of furnishing a water supply from drilled wells for cities, towns, manufacturing companies, and others using large quantities of water for domestic and other purposes, in all parts of the country; also for sinking oil and gas wells

I have the most improved method for sinking pipe wells from two to twenty-four inches in diameter, to any depth required, also, the most effective method of pumping water from wells by air pressure

Will also make examinations of grounds and locate

subterranean streams for water, oil and gas, by an entirely new discovery

Test borings made for foundations of buildings, bridges, minerals and salt

It will be a saving and of great advantage to owners of private residences and factories to have an independent water supply from an artesian well on their own premises, thus preventing water bills

I use the most approved tools and machinery and employ none but skilled mechanics, thus insuring to my patrons prompt service and entire satisfaction

If you are interested and desire a reliable water supply, let me hear from you, and I will quote you a low price consistent with good work, as I am prepared to contract for any size well; also for air compressors, wind mills, pumps, etc

I call attention to the numerous wells that I have sunk throughout this vicinity and in many parts of the country, and have recently finished forty-seven wells (eight and ten inch) for the Elizabethtown Water Company, of Elizabeth, N. J., which now furnishes the city of Elizabeth with a water supply

Information cheerfully furnished on application
